The balance on hand on deposit in the Amoskeag
National Bank is likely to be sufficient to cover the expense
of the Committee for the current year, insofar as the cost
of erecting new stones is concerned, but there are a num-
ber of graves which will need restoration along other lines
and we ask that the sum of \$25.00 be appropriated for this
purpose.

Respectfully submitted,

 GEORGE S. DANIELS,
School Board.

WEARE, N. H., January 31, 1930.

Superintendent's Report

To the School Board and Citizens of Weare:

This is my second annual report. It deals briefly with five topics:

1. Statistics of our schools.
2. Health of our school children.
3. Our school buildings.
4. Instruction in our schools.
5. Recommendations for the coming year.

TABLE I.
STATISTICAL REPORT FOR YEAR ENDING JUNE 30, 1929

	Number of Half-Days School in Session	Average Membership (Number of Pupils)	Percent of Attendance	Number of Half-Days Absence per Pupil	Number of Tardiness per Pupil	Number of Visits By Board Members	By Other Citizens	By Superintendent	By School Nurse

East Weare,	346	25.4	93.4	22.7	0.2	8	39	17	3
Rockland,	346	20.5	97.2	9.8	1.2	1	108	18	7
All Weare Schools,	348	232.4	94.5	14.7	1.3	32	895	306	73
State Average,	355.4		94.0		1.1				

It is gratifying to note that the attendance in most of the Weare schools equals or exceeds the State average of 94%. Only one school—the Buxton—showed an average far below this figure. In the matter of tardiness, the following schools deserve to be commended for improving their records considerably :

	Number of tardiness per Pupil	
	1927-1928	1928-1929
South Weare	6.8	1.0
Riverdale	5.7	2.3
Clinton Grove	3.3	0.9
North Weare	4.0	1.9
Center	1.8	0.7

The coöperation of parents and teachers in bringing about this improvement is much appreciated.

The smallest school last year, as shown by table I, was the Friends school. This year, the school there is still very small; the Riverside school is also small, having at present only six pupils. For a group of less than eight pupils, it is hardly justifiable to pay the cost of maintaining a separate school.

THE HEALTH OF OUR SCHOOL CHILDREN

The work of health supervision in our schools by a school nurse, begun last year by Ruth Whitcomb of Concord, is now being carried on by Edith Walker, whose address is 1492 Elm Street, Manchester. Miss Walker has charge of this work in six adjoining districts—Weare, Dunbarton, Goffstown Town, Goffstown Special, New Boston, and Bedford. Weare is regularly assigned 36 days of Miss Walker's time during the school year, but may be entitled to more in case of emergency, such as an epidemic.

The outstanding results of last year's health work included (1) a clinic for dental work at Weare Center, at which 27 children were treated, and (2) several cases of defective vision that were corrected.

Further work on the correction of poor eyesight is being attempted by Miss Walker, also an inquiry into the causes of the unusual number of cases that show symptoms of enlarged glands or goitre.

OUR SCHOOL BUILDINGS

In accordance with a vote taken at the school meeting last April, the Rockland school has been remodeled into a thoroughly up-to-date building. It has a new floor, a new roof and a new chimney; the windows (all but one) have been moved to the left side and increased in number to equal one-fifth of the floor area; the schoolroom is refinished in a light color, has white canvas window shades and additional blackboard space; and chemical toilets have been installed. It is now one of the lightest and most pleasant study rooms in town.

The Riverdale school has also received some attention. Two windows have been moved from right to left, and new seats, movable and adjustable, have been purchased.

I hope the policy of improving one school a year may be continued until all the Weare buildings are a credit to the town.

INSTRUCTION IN OUR SCHOOLS

It is difficult to describe clearly and briefly what goes on in school, and most parents have only a hazy notion of the processes of modern education. Instruction, however, is the thing for which we pay taxes, and as a fundamental aim of the whole school system, deserves some space in this report.

Reading is the first and most important single subject taught in our schools. Recent studies by psychologists have shown that there are distinct differences between *oral reading* and *silent reading*, and that each of these processes should be thoroughly taught in schools. It is also true that the habit of moving lips (i. e., whispering the words) while reading silently, is a serious hindrance because

it prevents rapid reading. Teachers today give emphasis to proper enunciation and expression of oral reading, also to drill on meaning of words and sentences, and to training in getting the thought quickly from textbooks in history, geography, etc. Even an occasional reading lesson from the arithmetic textbook is helpful, for much of the difficulty pupils have in solving problems can be traced to imperfect understanding of what they read.

Music is a subject not often classed among the "fundamentals," but one which deserves more systematic attention than it is apt to receive, especially in rural schools. For better instruction in this subject, new textbooks and phonograph records are being supplied, and music has a regular place on the school program.

No matter how thoroughly a subject has been mastered, time will help one to forget it; and practice is necessary to keep it fresh in mind. This truth is sometimes forgotten by high school teachers, who deplore the poor spelling, arithmetic and punctuation of their pupils but who have often neglected to attempt a cure. This year, definite time is being devoted each week to drill on these and other fundamental subjects. The new high school report card also recognizes the requirement of good usage in order to receive a mark higher than D.

In order to assist teachers in solving their problems, a series of meetings for discussion and study is being held this year. Each teacher is asked to attend three meetings during the year. We are teachers deserve credit for their willingness to travel, some of them long distances, to attend these meetings. Another institution which is proving helpful to teachers is the professional library, circulated from the superintendent's office. This consists of recent books and magazines dealing with school and classroom problems. Over sixty volumes are now in circulation among the fifty-one teachers in the union.

RECOMMENDATIONS FOR THE COMING YEAR

1. A longer school year.—

You will note by referring again to table I, that the Weare schools were in session last year, on the average, only 348 half-days, while the average for the State is 355.4 half-days. This means that the pupils in Weare, because of holidays and other non-school days, lacked nearly 4 days of having a full school year according to the State average. I believe we should follow the plan now in use in many districts, of adopting a school year of 180 days, with the provision that teachers' institute days and visiting days may be counted as school days. Such a regulation permits the proper celebration of our numerous holidays without depriving our children of their full share of educational privileges.

2. Less tardiness and absence.

The coöperation of parents is earnestly urged, that we may cut down still more the amount of tardiness and absence which we still have in Weare. The situation at the high school for the present year is serious; if the record of tardiness is not improved during the remainder of the year, we will be likely to lose our approval by the State.

3. Correction of visual defects.—

Glasses may not be becoming to children, and they are certainly expensive; but neither the appearance nor the expense should stand in the way of improving our children's ability to see clearly. To those parents whose children's eyesight is reported to be poor, this reminder is addressed, in the earnest hope that they will make an effort to correct the defects at once.

4. Remodeling of one school building.

It seems to me that the Buxton school is the building most in need of remodeling this year. It has windows on four sides, lacks blackboard space adequate for its needs, and has unsatisfactory toilet facilities. The South Weare

school also stands in need of improvement, and serves more children than the Buxton. I think we should vote to improve one of these two buildings this year.

5. Eight grade pupils should attend Junior High School.

Throughout the school course, pupils derive some advantage from being in a group with others of the same grade. The competition helps interest them in their studies. This advantage increases as soon as pupils grow older, until in the upper grades it becomes a necessity. A pupil in the eighth grade, alone in his class, or with only two or three, suffers a great handicap. This fact led to the establishment of a junior high school at Weare several years ago, and I firmly believe parents should take advantage of the privileges offered in the junior high school: for seventh graders whenever it can be arranged, and for eighth grade pupils without exception. At the present time there are seven eighth grade pupils in the junior high school, and four at South Weare. It is hoped that next year, every eighth grade pupil will be enrolled at the junior high school.

CONCLUSION

I am glad of this opportunity to express my appreciation of the generous coöperation I have received during the past year from pupils, teachers, school board members and other citizens.

Respectfully submitted,

ALMON W. BUSHNELL,
Superintendent.
